DISCOVER **ON-DEMAND** STORES.
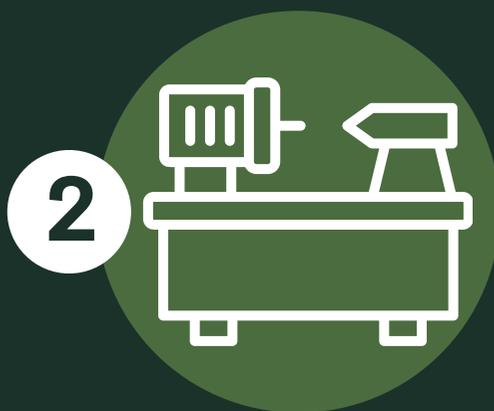

Click to View Store →

> On-Demand is a great solution for offering a wide variety of branded merch without the guesswork of what sizes and styles to have on hand. On-Demand stores allow the convenience and options of an e-commerce store with no inventory or minimum order quantity.

1 Customers/Employees visit your site and make a purchase.

2 Our decoration partners go to work to produce the item.

3 The customer receives their made-to-order merch.

Features

- Up to 20 products
- Webstore uses your logo & brand colors
- Up to 4 weeks development time

- 1-piece minimums
- Payments collected via credit card
- Orders produced, shipped, and delivered in 10 days

WHY A POP-UP STORE IS A GREAT FIT?

A popup webstore streamlines the entire ordering process for branded apparel and promotional items. Instead of collecting sizes, styles, and preferences from each individual employee, the webstore does the work for you.

- **Saves time** by eliminating back-and-forth emails and manual order tracking
- **Gives employees flexibility** to choose the items and sizes that fit them best
- **Ensures accuracy** with built-in deadlines and order organization
- **Simplifies delivery**—we sort and bag orders by individual so distribution is quick and easy

Once the store closes, we handle production, quality checks, and fulfillment—making the process seamless from start to finish.

Store Setup Options

We offer three different ways to structure your pop-up store, depending on how you'd like payment handled.

1 Inquiry (No-Payment) Store

This option is ideal for internal approval or company-funded programs.

- Employees select items and sizes through the store
- No payment is collected at checkout
- Once the store closes, we provide you with a complete order summary for approval and invoicing

Best for: Company-paid orders or internal budgeting and approval workflows.

2 Company Allowance

This gives employees flexibility while keeping your budget controlled.

- Each employee receives a coupon code for a set dollar amount which is pre-determined
- If their total exceeds the allowance, they pay the difference
- Upon store closure, we provide you with a summary of codes used for approval and invoicing.

Best for: Apparel programs, employee incentives, or annual merch allowances.

3 Employee-Paid Store

This option requires the least administrative involvement from your team.

- Employees place orders and pay in full at checkout
- No invoicing or payment collection required from your company
- Orders are still produced, sorted, and delivered together

Best for: Spirit wear and optional branded merchandise refresh.

POP-UP STORE
TIMELINE

Building the Store

This is where your store comes to life. You select the items you'd like to offer, we provide product recommendations, and you choose the type of store that works best for your team. Once all details are finalized, we build your custom pop-up store.
Timeline: Up to 2 weeks

01

Opening the Store

When your store is ready, we'll send you a shareable link to distribute to your employees. You get to choose when you want the store to open and how long it is open.
Recommended Store Open Time: 2 weeks

02

Ordering

After the store closes, we compile all orders and submit them to production. If coupon codes were used, we'll provide a detailed report showing how many codes were redeemed and how they were applied.
Timeline: Begins immediately after store closes
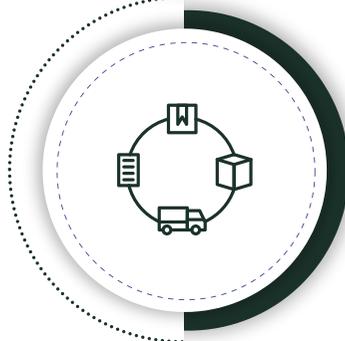

03

Production

Your items are produced and decorated during this stage. We stay in close communication with our decorators to ensure quality and accuracy every step of the way.
Timeline: 2–3 weeks

04

Fulfillment

Once all products arrive, we take care of sorting, labeling, and bagging each order. This makes distributing items to your employees simple and stress-free.
Timeline: 1 week
